PAY BACK

Great ideas underfoot

Great-looking floors are a strong feature of any home. They often make all the difference. RE/MAX knows this upgrade can generate a 22% better return on investment than the average reno.

Start by ripping out that dated wall-to-wall carpet. Then sand your existing floors down and refinish them, or choose one of the many easy-to-install affordable laminates now available. A darker stain gives an elegant yet up-to-date look.
